

The raw brick that makes up our Glazed Thin Brick is sourced through a supplier who has been in business for over 100 years and continues to source and manufacture all brick right here in California, within 150 miles from the Fireclay Tile factory. Brick is glazed on site at the Fireclay Tile factory in Aromas, CA. As with all hand made tile and brick, some degree of color and size variation is to be expected. Please see the attached Color Guide for a full list of colors and variation.

SUITABLE APPLICATIONS

LOCATION	SUITABILITY
Walls	Yes
Floors	Yes
Steam Showers	No
Pools	No
Exterior	Yes

- Can accommodate projects over 100,000 SF.
- Commercial, hospitality and residential settings
- Interiors and exteriors
- Walls, vertical and horizontal surfaces
- Residential floors
- Fireplace faces and hearths, not for use inside the fireplace box.
- Contact us or your sales team member to further discuss the details of your project

COLOR INFORMATION

- Available in 28 all-natural and lead-free glazes.
- Natural variation is inherent in color, texture, and finish depending on the specific glaze. Individual color variation is graded V1 (least) to V4 (most). See the attached Color Guide for a full list of colors and variations.
- Custom colors are available for large commercial projects over 5,000 sq.ft. Please contact us so we can best assist you on your next project.

CUSTOM OPTIONS

- Custom colors, sizes, and brick finishes are available. Please contact us with specific details so we can best evaluate the project.

MANUFACTURING INFORMATION

- The original brick production takes place in Sacramento, CA, just 150 miles away from our Aromas, CA factory.
- Glazed Thin Brick is manufactured by our expert team of ceramists in Aromas, CA.

LEAD TIMES

- Our lead times vary, please contact our website for current lead times.

INSTALLATION

- Pieces per sq.ft. assumes 3/8" grout joint which is standard in the brick industry. If thinner grout line is desired, please follow guidelines below to ensure enough material is ordered:
 - 3/16" grout line (minimum recommended) - order 20% overage
 - 1/4" grout line - order 16% overage
 - 3/8" grout line - order 10% overage

- Use a natural color sanded grout and avoid contrasting grout colors. Contrasting grout colors should be used with grout release and tested for staining on the thin brick before grouting.
- The surface of the thin brick may trap some grout. It may be advisable to use a grout bag and tool the grout joints.
- Please refer to our [Brick Installation Guide](#) for more detailed instructions.

WARNING: Dry cutting and grinding of brick tile can lead to silica dust exposure, known to the State of California to cause cancer and birth defects or other reproductive harm. To reduce exposure to silica dust, only use a wet saw when cutting any tile.

ENVIRONMENTAL

- All of our glazes are 100% lead-free.
- Glazed Thin Brick is substantially lighter than traditional glazed brick, resulting in potentially an 85% cost and emissions reduction.
- All products are packaged in recycled cardboard boxes and on recycled pallets or crates. We use biodegradable peanuts or other recycled materials for protection.

SIZE GUIDE

BRICK	BRICK (APPROX. SIZE)	PIECES/SF
Brick Flat	8" L x 2-1/2" W x 1/2" T	6.12
Standard Corner	8" L x 2-1/2" W x 1/2" T with a 3-9/16" return	—
