• Trim gives your installation a clean, finished look by creating seamless transitions and hiding mud set and thin set.

• Trim is vital for wet environments to keep water from pooling in corners.

• Trim can reinforce stress points between the wall and floor by repelling water.

• Fireclay Tile is one of the only companies that offers fully customizable tile trim. Contact your Design Consultant or email hello@fireclaytile.com for details.
Trim Glossary

**SURFACE BULLNOSE (SBN)**
A tile piece that has a rounded, glazed edge that can be placed horizontally or vertically. It can also come as a corner piece (right or left) that features two perpendicular rounded glazed edges.

![Surface Bullnose](image)

**Uses:** If your tile installation doesn’t extend to the ceiling or ends flush with a cabinet wall, the Bullnose’s rounded edge can help cap it off and create a smooth transition between the tile and the wall. It also hides exposed tile edges as well as mud/thin set.

**Sizes:** Short side, long side, or corner available in 2x8, 3x6, 3x9, 4x4, 4x8, 6x6, 8x8, 6x12

---

**COVE BASE OUTSIDE CORNER**
A thin, convex corner piece that’s glazed on the outside.

![Cove Base Outside Corner](image)

**Uses:** When two Cove Bases intersect at an outside corner, you’ll need a Cove Base Outside Corner to join them and keep water from being retained in the grout.

**Size:** 6”

---

**QUARTER ROUND**
A thin, curved trim piece that is glazed on the outside. Its edges are unglazed on both sides.

![Quarter Round](image)

**Uses:** Quarter Rounds are one of the most popular and frequently used trim pieces. Use it as a transition between wall and tile to hide the mud setting and create a clean, curved glazed edge. You can also use it to round corners or frame out shower niches, window sills, and under-mount sinks.

**Size:** 6”

---

**QUARTER COVE (FINGER COVE)**
Concavely curved Quarter Round trim piece that’s glazed on the inside.

![Quarter Cove (Finger Cove)](image)

**Uses:** Quarter Coves are a good way to frame out the inside corner of an installation in a wet environment. It keeps the corner from retaining water inside the grout, such as in a shower floor or niche

**Size:** 6”

---

Due to the handmade nature of our trim, some variation both within one piece and from piece to piece is to be expected. Pieces may not be perfectly straight or flat. Glazes run when fired so the color on curved edges may vary from flat pieces.
